

Name: Janella Mae S. Francisco
Degree: Bachelor of Science in Nursing
School Attended: San Sebastian College – Recoletos de Cavite
Address: Sta. Cruz, Cavite City, Cavite
Awards Received: Cum Laude, Academic Excellence Awardee

Even though I was a late entry for the Scholarship Program, I have never felt that I wasn't welcomed. Through Ma'am Anne, I have made it to the Serving and Sharing Foundation. Little did I know that this scholarship will change my life. Through my childhood, I have always been afraid of hospitals, however, I think that God has other plans for me. I really believed that my profession now is really destined for me because when I was in my 6th Grade, my mother bought me a book to which is the story of Florence Nightingale, and what surprised me is that I already met the Mother of Modern Nursing in my childhood who is one of the most important icon to the course which the scholarship helped me to get in to – BS Nursing.

No matter how many times I have said this already, I am always and will always be proud to be a scholar of the Serving and Sharing Foundation. They accepted me wholeheartedly and supported me all the way through. One of the best things about this Foundation is that I have felt that I am a part of a family. I felt like Ma'am Lorraine, Dr. Rommel and Ma'am Anne are my family as they are always boosting my morale. They are one of my driving forces to keep on achieving my dreams. They are not just supporting you financially but also emotionally as well. And now, I already achieved my license as a Registered Nurse. I am very grateful that I was accepted and I have a big respect on this foundation. May they continue to strive and be a way for other students as well to take a hold of their dreams.
